June 26, 2009

OSRAP MEMORANDUM 09-41

TO: All ISIS State Agencies

FROM: Afranie Adomako, CPA
Director

SUBJECT: Instructions for Preparation of the Annual Fiscal Report (AFR)

Enclosed are the instructions and forms necessary for the completion of your reporting entity's Annual Fiscal Report (AFR) for the period ending June 30, 2009. OSRAP will prepare all of the depreciation schedules for movable property and buildings.

As in prior fiscal years, you will obtain the "lead" schedules for Schedules 1, 3, and 4 from BUNDL. There were no changes made to these forms. In an effort to aid agencies, applicable information in ISIS has been accumulated and the schedules produced. The lead schedules are to be returned with your completed AFR packet. DO NOT RETYPE THE LEAD SCHEDULES. Add the changes in the adjustment column on all schedules and adjust accordingly. Statements A and B are no longer required for ISIS agencies. Relevant information that was on these statements should be included in the notes. These include payroll accrual by programs, petty cash, deferred revenue, and GASB 34 accruals. The information needed for Notes J (annual, sick, and compensatory leave) and R (payroll accrual) will be provided to you from OSRAP. You may contact your assigned analyst after July 9th to obtain this information. Again, you will be required to provide GASB 34 accruals, which should be provided on Schedule 14.

Schedules 1, 3, and 4 will be on BUNDL after the 8/15/09 close. The ISIS report numbers are 4G31, 4G32, and 4G33, respectively. **Any changes that are needed on these schedules should be made on the original. Also, any payments for delivery dates on or before 6/30 paid with Current Year Appropriation (4G03) will be in BUNDL.**

Several new GASB Statements (GASB Statements No. 49, 52, 55, and 56) are being implemented for this fiscal year end. ***GASB Statement No. 49 – Accounting and Financial Reporting for Pollution Remediation Obligations***, requires all governments to account for pollution remediation obligations in the same manner and requires the reporting of pollution remediation obligations that previously may not have been reported. Pollution remediation obligations address the current or potential detrimental effects of existing pollution by participation in remediation activities. When one of five obligating events identified by the GASB occurs, the components of the expected pollution remediation outlays must be estimated and a determination made whether the outlays should be accrued as a liability or capitalized when goods and services are acquired, as appropriate.

Pollution remediation liabilities must be measured based on the pollution remediation outlays expected to be incurred to settle these liabilities. The estimate must be based on “reasonable and supportable” assumptions of future events that may affect the eventual settlement of the liability, and should be measured and reported at current value. The current value of the liability should be based on applicable federal, state, or local laws or regulations that have been approved, regardless of their effective date and the technology expected to be used for the cleanup.

Outlays for pollution remediation obligations should be recognized as liabilities if goods and services used for pollution remediation activities are liquidated with expendable available financial resources (modified accrual accounting). However, pollution remediation outlays should be capitalized in the government-wide or proprietary fund statements when goods and services are acquired for certain specific purposes; these amounts are recorded as expenditures at the fund level. Note BB—Pollution Remediation Obligations—identifies fund level accruals, government-wide accrual reclassifications, fund level expenditures for pollution remediation capital acquisitions, and note disclosure.

GASB Statement No. 52, Land and Other Real Estate Held as Investments by Endowments, requires that permanent and term endowments, including permanent funds, report their land and other real estate investments at fair value as opposed to historical cost. The fair value note disclosures in Note C, Deposits with Financial Institutions and Investments, apply to these investments. See OSRAP memo 09-21 for more information relating to GASB 52.

GASB Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, incorporates the hierarchy of generally accepted accounting principles (GAAP) for state and local governments into the GASB authoritative literature. GASB Statement 56, *Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards*, incorporates certain accounting and financial reporting guidance previously only contained in the American Institute of Certified Public Accountants’ auditing literature for state and local governments. These two statements are intended to provide a single source for governmental GAAP and make it easier to identify and apply relevant accounting guidance. Neither of these two statements will cause any changes in the AFR.

As in the past, agencies should consider materiality before making adjustments to ISIS-generated schedules. Remember your agency reports are intended “to present fairly, in all material respects, the financial operations of your agency. In this regard, the following table will be the basis of determining materiality and will assist you in your decision to adjust the system reports or submit them unchanged. If your aggregate adjustments are \$100,000 or more, we ask that you adjust the lead schedules regardless of the conclusions drawn from the materiality table. Additionally, in deciding whether adjustments should be made, you should use the aggregate amount of all adjustments. For example, if you have \$300,000 in expenditures with five adjustments totaling \$15,000 or more, you should record the adjustment. Each adjustment does not stand on its own. Materiality under the sliding scale method may be determined by multiplying the appropriate factor below by total revenues or expenditures. Using the table, apply the corresponding factor, interpolating as necessary between two factors.

<u>Revenues/Expenditures</u>	<u>Factor</u>
\$ 300,000	.050
1,000,000	.017
5,000,000	.015
10,000,000	.012
50,000,000	.008

Materiality factors are designed as an aid in completing the AFR. To ensure that the materiality table shown above is not impacting the state’s CAFR adversely, keep a record of all the differences you

June 26, 2009

discover and do not include these on your financial reports. *This list of differences must be forwarded with the AFR packet to both the Office of Legislative Auditor and this office.*

The forms and instructions are designed to meet the general needs of most reporting units; however, this should not preclude adaptations (after approval from this office) for units having unique reporting situations.

You are not required to submit copies of system reports with your AFR (except Schedules 1, 3, and 4). The reports that you need not submit include the appropriation reports, agency trial balances, and copies of any ad hoc reports. **Do not staple the report; use a binder clip.**

Any changes from last year in the instructions, AFR, and notes appear in **bold lettering**. The completed packet should include the following:

1. Schedule 1 (General Operating Appropriation Funds, Schedule of Revenues and Expenditures - Budgetary Comparison, Current Year Appropriation –Budget - Legal Basis)
2. Schedule 3 (Schedule of Appropriated Revenue by Type - General Operating Appropriation Funds)
3. Schedule 3-1 (Schedule of Adjustments Due to Cash Basis Programs)
4. Schedule 4 (Schedule of Non-Appropriated Major State Revenue and Income Not Available)
5. Schedule 6 (Non- Appropriated Other Funds- Schedule of Revenues, Expenditures and Changes in Fund Balance)
6. Schedule 6-1 (Escrow Fund Schedule of Revenues, Expenditures, and Changes in Balances)
7. Schedule 8 (Schedule of Federal Financial Assistance)
8. Schedule 10 (Schedule of Per Diem Paid Board (Commission) Members)
9. Schedule 11 (Schedule of Consultant Fees for Feasibility Studies and Other Special Reports by Fund)
10. Schedule 13 (Schedule of Interagency Receipts)
11. Schedule 14 (GASB 34 Revenue Accruals)
12. Schedule 14A (GASB 34 Expenditure Accruals)
13. Schedule 15 (Comparison Figures)
14. Schedule 16 (Cooperative Endeavors)
15. Notes – **Do not** change the note sequence. If a note does not pertain to your entity, put N/A by the note letter, and maintain the note lettering in the packet.

If you have any questions concerning Schedule 8, please contact Ms. Gloria Tilley at 342-1090.

The deadline to submit the AFR packet is August 31, 2009. This packet is on OSRAP's website at www.doa.la.gov/osrap/index.htm (click on AFR packets and select ISIS file). Please return a completed hard copy to OSRAP, Post Office Box 94095, Baton Rouge, LA 70804-9095.

A copy of the AFR must be forwarded under separate cover with a signed affidavit to the Office of the Legislative Auditor, Post Office Box 94397, Baton Rouge, LA 70804-9397 as they will not send out separate affidavit forms. Please be certain that copies of all schedules are included. Please note the affidavit sent to OSRAP must be the original, signed, and notarized document, while the affidavit sent to the Legislative Auditor may be a copy of the original. Do not staple the reports; use a binder clip instead.

OSRAP Memo 09-41

Completing Schedule 8	sent separately

1. Prepare Schedule 3 (Schedule of Appropriated Revenue by Type - General Operating Appropriation Funds) Note: ISIS agencies should adjust system-generated reports if material differences are found.
2. Prepare Schedule 3-1 (Schedule of Adjustment Due to Cash Basis Programs) For agencies with cash basis programs only.
3. Prepare Schedule 4 (Schedule of Non-Appropriated Major State Revenue and Income Not Available) Note: ISIS agencies should adjust system-generated reports if material differences are found.
4. Prepare Schedule 1 (General Operating Appropriation Funds, Schedule of Revenues and Expenditures - Budgetary Comparison, Current Year Appropriation - Budget - Legal Basis) Note: ISIS agencies should adjust system-generated reports if material differences are found.
5. Prepare Schedule 6 (Schedule of Revenues, Expenditures and Changes in Fund Balance - Non-Appropriated Other Funds)
6. Prepare Schedule 6-1 (Schedule of Revenues, Expenditures, and Changes in Balance - Escrow Fund)
7. Prepare Schedules 10 (Schedule of Per Diem Paid Board (Commission Members)), and 11 (Schedule of Consultant Fees for Feasibility Studies), if applicable.
8. Prepare Schedule 13 (Schedule of Interagency Receipts)
9. Prepare Schedule 14 (GASB 34 Revenue Accruals)
10. Prepare Schedule 14A (GASB 34 Expenditure Accruals)
11. Prepare Schedule 15 (Comparison Figures)
12. Prepare Schedule 16 (Cooperative Endeavors)
13. Prepare Schedule 8 (Schedule of Federal Financial Assistance)
14. Prepare Note presentations

SECTION: Instructions for Preparation of Annual Fiscal Report
UNIT TYPE: All ISIS State Agencies
PROCEDURES: Schedule 3

Page 2

Schedule 3 is a presentation of Revenue activity for the agency appropriation (general & auxiliary) activities. It is generally intended to reflect ISIS activities and is normally a presentation of financial data on a legal budgetary basis. Non-revenue items (i.e. T100, T110, T120, T130, T150, T170, T180, T190, T195, T200, T210, T220, T300, T310, T340, T350, T360, T370, T375, T380, and T385) are not shown on this schedule. Agencies on central cash management will receive a "lead" Schedule 3. The information on the schedule, as mentioned in the cover letter, is derived from data in ISIS. DO NOT RETYPE THIS LEAD SCHEDULE. Should you have adjustments, make pencil corrections on the lead schedule in Column VII and return it to this office with your packet. Remember adjustments less than those established using the materiality factors shown in the cover letter should not be made. The following is the method used in preparing the lead schedules:

1. In Column I enter the three digit ISIS Means of Financing Appropriation Number associated with the detail appropriated fund source.
2. In Column II enter the four digit ISIS revenue source code for revenue collections in that appropriated fund source.
3. In Column III enter by ISIS revenue source code the total cash receipts received and classified through June 30, 2009, from the June 30, 2009, Organization Responsibility Reports (2G00) or Appropriation Report (2G15). Do not include non-revenue items listed above.
4. Under Column IV enter by ISIS revenue source code the total cash receipts on deposit with the State Treasury but not classified as of June 30, 2009 (assumes classification subsequent to June 30, 2009). Refer to ISIS report 5G25 Prior Year Classification of Deposits on File as of 6/30/09 Report to obtain listing of unclassified receipts and to your July/August monthly transaction listings to determine subsequent classification type.
5. Column V is the total of Columns III and IV.
6. In Column VI enter by ISIS revenue source code the accounts receivable, which were collected and classified between 7/1/09 and 8/14/09, for the reported fiscal year within those appropriated sources, and were not included in either Column III or IV.
7. In Column VII agencies on central cash management would record material modified accrual adjustments to ISIS information. e.g. Cash received at 6/30 and classified in the 45 days, must be footnoted so accounts receivable can be adjusted.
8. Column VIII "Total Revenue" is the total of Columns V, VI and VII. If classifications have been accomplished in accordance with established time frames, this amount should agree with the August 15, 2009, Organization Responsibility Report (2G00) or Appropriation Report (2G15) for fiscal year 2008-2009, except for adjustments in Column VII.

NOTE: The Total Revenue figure may include revenue in excess of budget. Direct General Fund Appropriation and Interim Emergency Board activity are not included on this schedule.

Section A is a method of adjusting 2008-2009 ISIS Means of Financing for departments (e.g. DHH) that have cash basis programs (such as Title 18 and/or 19). This schedule provides a means of reflecting revenue accrual data (both 2007-2008 and 2008-2009) using budgetary basis revenue data for those units having cash basis programs. If your agency has Federal cash basis grants, please accrue the revenue that you are to receive to cover the expenditures that have been incurred, if the grant was written with that specification. Units without these programs are not required to complete Schedule 3-1.

1. Column I-Enter the three digit ISIS Means of Financing Appropriation Number associated with each fund.
2. Column II-Enter the total revenue from Column VIII of Schedule 3 by means of financing.
3. Column III-Enter the accrual amounts established in 2007-2008 by means of financing, from the Schedule 3-1, column IV in your fiscal year 2008 AFR.
4. Column IV-Enter the 2009 cash basis program accruals by means of financing, i.e., revenues earned prior to June 30, 2009, but which will be deposited to the 2009-10 fiscal year during the period July 1, 2009 through June 30, 2010.
5. Column V-Equals Column II minus III plus IV.

Section B Schedule 3-1 is a means of adjusting 2008-09 ISIS expenditures for departments that have cash basis programs.

Should you feel your agency is required to complete this part of 3-1, call your designated analyst at the Office of Statewide Reporting and Accounting Policy for further instructions.

Schedule 4 is a presentation of non-appropriated (INA, major state and other non-appropriated) revenue activity occurring within the agency unit that is not available to finance operations. Although Schedule 4 is a presentation of financial data on a legal budgetary basis, it is normally equivalent to a modified accrual basis. Like Schedule 3, agencies on central cash management will receive a "lead" Schedule 4. DO NOT RETYPE THIS LEAD SCHEDULE. If you have adjustments, make pencil corrections on the lead schedule in Column VIII and return it to this office with your packet. The following is the method used in preparing the "lead" schedule:

1. In Column I enter the three-digit ISIS Appropriation Number and title associated with the Non-Appropriated Fund Source. (Income not available will not have a separate agency appropriation number. All Agencies will use XB2.)
2. In Column II enter the four-digit ISIS revenue organization number for the revenue source being reported.
3. In Column III enter the four-digit ISIS revenue source code.
4. In Column IV for each ISIS revenue source code enter total cash receipts classified through June 30, 2009, from the related ISIS Organization Responsibility Report (2G00). Do not include non-revenue accounts (i.e. T100, T110, T120, T130, T150, T170, T180, T190, T195, T200, T210, T220, T300, T310, T340, T350, T360, T370, T375, T380, and T385, if applicable).
5. In Column V enter, by ISIS revenue source code, the total cash receipts on deposit with the State Treasurer but not classified as of June 30, 2009, which were classified subsequent to June 30, 2009, and prior to August 15, 2009. Refer to 5G25 Prior Year Classification of Deposits on File as of 6/30/09 to obtain listing of unclassified receipts and to your monthly transaction listing to determine subsequent classification.
6. Column VI is the total of Column IV and V.
7. In Column VII, enter by ISIS revenue source code, the accounts receivables, which were collected and classified between 7/1/09 and 8/14/09 for the reported fiscal year and were not included in either Column IV or V.
8. In Column VIII agencies on central cash management would record material modified accrual (see definition on preceding pages) adjustments to ISIS information (e.g. cash received at 6/30 and classified in the 45 days, must be footnoted so accounts receivable can be adusted).
9. Column IX "Total Revenue" is the total of Columns VI, VII, and VIII. If classifications have been accomplished in accordance with established time frames, this amount should agree with the August 15, 2009 Organization Responsibility Report (2G00) (or you can use the ISIS screens) for fiscal year 2008-09, except for any adjustments in Column VIII.

Schedule 1 is intended to represent total general operating activities (both means of financing and expenditure activities authorized in the general and auxiliary appropriations acts) on a legal budgetary basis.

Schedule 1 is a "lead" schedule produced through ISIS. It will be made available to those agencies with expenditures and/or revenues on ISIS. DO NOT RETYPE THIS LEAD SCHEDULE. No adjustments should be made unless the adjustments are greater than those established using the factors discussed in the cover letter. Should you have adjustments, make pencil corrections on the lead schedule in Column IV and return it to this office with your packet. Adjustments to this schedule may include additions to the accrual columns. If you received goods and/or services on or before June 30, 2009, and liquidated these invoices from your fiscal year 2010 appropriations, this amount will not be reflected on your "lead" schedule. Material amounts of such payments may be reflected as an adjustment in Column IV. Material additions to accounts receivable would also be reflected as an agency adjustment in Section A of Column IV.

The following is the method used in preparing the "lead" schedule:

1. In Column I indicate:
 - A. Revenues - Total actual year-to-date receipts by Means of Financing (exception GF and IEB indicate total warrants drawn) from June 30, 2009, Appropriation Report. This should equal Column V of Schedule 3 plus any non-revenue activity such as T100, T110, T120, T130, T150, T170, T180, T190, T195, T210, T220, T300, T310, T340, T350, T360, T370, T375, T380, and T385, if applicable. NOTE: T200 should not be included on Schedule 1. NOTE: Increases will be due to unclassified cash and will equal the total of the revenue accounts shown on Run 5G25, *PY Classification of Deposits*.
 - B. Expenditures - Total actual year-to-date cash disbursements by programs at June 30, 2009, Appropriation Report by Agency (2G15). NON-ISIS agencies may obtain information from agency financial records.

NOTE: For ISIS agencies, Column I expenditures are adjusted by system accounts payable, debit memos, and returns of appropriation.
2. In Column II indicate:
 - A. Revenues - no information need be reported on these lines unless receipts classified to 2008-09 were recognized in error as revenue in the 2007-08 statement. (Note: This does not include Title 18 and 19 or ineligible patient fees for DHH.)
 - B. Expenditures - indicate those payments for goods and services received or rendered on or before June 30, 2008 and liquidated with fiscal year 2008-09 appropriation. ISIS Report 4G03 lists those documents you submitted with a June 30, 2008, or earlier delivery date and liquidated as a fiscal year 2008-09 payment. No adjustments should be made for inaccuracies unless the error is greater than those established using the sliding scale materiality factors discussed in the cover letter.

3. In Column III indicate:
 - A. Revenues - Total receivables on a legal budgetary basis by Means of Financing.
 - (1) General Fund and IEB receivables should equal the actual prior year warrants drawn and/or reversed between July 1 and August 14, 2009.
 - (2) Means of Financing receivables (lines 4 through 10) should equal Column VI on Schedule 3 plus any actual or accrued transfer activity (i.e. T110, T100, T130, T120, and T180) received or disbursed between 07/01/09 and 08/14/09. (Exception: for DHH agencies DO NOT include Title 18/19 accruals on Schedule 1.)
 - B. Expenditures – Total accrued liabilities by program may be derived by calculating all expenditures (account type 22) that were recorded during the thirteenth period. This would include system vouchers payable, debit memos, or returns of appropriations. Column III should represent total unliquidated bona fide obligations for goods and services received or rendered on or before 6/30/09. NOTE: ISIS Agencies: Should your June 30, 2009, Agency Trial Balance (2G01) reflect a balance for 6335, Vouchers Payable, you may obtain the breakdown by program from run 1G07B Unscheduled Payment Turnaround Report, and 1G26B EFT Unscheduled Turnaround Report at 6/30/09. Should you have credit memos, increase the appropriate program in Column I and decrease the respective amounts in Column III for the amount of the credit memo. Should you have payables, decrease the appropriate program in Column I and increase the respective amounts in Column III. The ISIS report will show accounts payable without a sign. Debit memos will have a negative (-) sign beside the number.
4. In Column IV agencies on ISIS would record accrual adjustments to system information. Remember, you should include all payables that were not liquidated in the 45-day close period with the prior year appropriations; however you should not include future scheduled lease payments that are shown in Note M. Maintain a detailed list of these payables to back up the amount shown on Schedule 1.
5. In Column V indicate the total of Column I, minus Column II, plus Column III, and plus or minus Column IV.
6. In Column VI indicate the revised appropriation amount, which should agree to the Appropriation Report by Agency as of August 15, 2009, or the latest approved BA-7.
7. Column VII "Variance" is the net result of Column VI minus Column V. NOTE: If Column VI is greater than Column V, the variance would be unfavorable for appropriated revenue and favorable for appropriated expenditures. If Column VI is less than Column V, the opposite would be the case.

SECTION: Instructions for Preparation of Annual Fiscal Report
UNIT TYPE All ISIS State Agencies
PROCEDURES: Schedule 6

Page 7

Schedule 6 is necessary only if the unit has non-appropriated operational activities (i.e. Chapel funds, Inmate Welfare funds, etc). Due to the possible diversity of activity type, a free format is provided. Be sure that the "Fund Balance, at beginning of year" equals the "Fund Balance, at end of year" on the prior year's report. Any adjustments to the beginning balance should be placed on the adjustment line.

Schedule 6-1 is used to account for the Escrow Fund, which is on the full accrual basis. This fund will present receivables and payables that occurred during the 45-day close plus those amounts attributed to prior year activity and not classified to the system. The "Balance at the beginning of year" should be the amount of the prior year ending balance. This amount is on full accrual basis and may be different from your system amount for the Prior Year Carryover (T190). If there is a difference, please make a notation. A credit to revenue is an addition/receivable and a debit to revenue is a deduction/payable. If your agency uses an expenditure organization, then expenditures are shown as a deduction/payable.

The Escrow Fund is used to collect assets that are held for others. Those assets held that belong to another state fund or state entity should be removed from the Escrow Fund and not reported in Schedule 6-1 for Escrow. "Removed" means do not show it at all in Escrow on the Schedule 6-1, otherwise including it and removing it will gross up your additions and deletions in that fund. One example is taxes paid in protest. These taxes are accounted for in the Escrow Fund, but a portion of the taxes ends up in the General Fund. That portion that ends up in the General Fund will not be included and reported in the Escrow Fund on Schedule 6-1.

GASB provides for this requirement in GASB Statement 34 Paragraph 111 as follows: Sometimes an agency fund is used as a clearing account to distribute financial resources to other funds of the government, as well as other entities. When this occurs, the portion of the clearing account balance that pertains to other funds of the state should not be reported in agency funds. Rather, it should be reported as assets in the appropriate funds. The following are some organizations that we know are GASB Statement 34 paragraph 111 organizations that are removed and not reported in Schedule 6-1.

Agency #	Agency Name	Org #	Organization Name	Ultimate Fund Recorded In
147	State Treas Operating	7100	Unclaimed Property Reserve	General Fund
147	State Treas Operating	7122	External Auditor Collections	General Fund
148	State Treasurer	R125	Petro Gas Unclassified	Transportation Trust/Timed
148	State Treasurer	R155	Petro Sp Fuels Unclassified	Transportation Trust/Timed
148	State Treasurer	R160	Petro Sp Fuels IFTA Unclassified	Transportation Trust/Timed
419	Dept. of Public Safety	4014	State Police Collections Dr	General Fund
419	Dept. of Public Safety	4018	State Police Collections Cr	General Fund
420	Office of Mtr Vehicles	4040	Handling Fees	General Fund
420	Office of Mtr Vehicles	4055	MV Collections – Cr	General Fund
420	Office of Mtr Vehicles	4060	MV Collections – Dr	General Fund

The amounts for Schedule 6-1 can be obtained by adding together organizations that are **not** GASB Statement 34 Paragraph 111 organizations from the 2G00, Organization Responsibility Report.

Please provide the GASB Statement 34 Paragraph 111 amounts that have been excluded by organization on the Schedule 6-1 and indicate the fund in which the amounts will be ultimately reported.

Note: As all SAP agencies have the payroll clearing subfund, K98, it will no longer be necessary, or possible, for agencies to complete a 6-1 for payroll clearing accounts.

Schedule 13 is a recapitulation of the total Interagency Receipts reported on Schedule 3, as of August 14, 2009.

1. In Column I, list the ISIS Agency Number, if applicable, where the revenue came from. (**Not your agency number. If you do not know the agency number, leave blank.**)
2. In Column II, list the name of the agency, college, internal service fund, etc. that provided the revenue.
3. In Column III, enter the amount received from each source at June 30, 2009.
4. In Column IV, enter the amount of unclassified cash for each source at June 30, 2009.
5. In Column V, enter the amount of accounts receivable for each source received during the 45 day close.
6. In Column VI, enter the total revenue received from each source and this should equal the sum of columns III, IV, and V.

*****Schedule 13 totals must equal Schedule 3, Line C, Columns III, IV, VI, and VIII totals.*****

Schedule 14 is for GASB 34 revenue accruals by funding source, organization number, and object.

Revenues under the modified accrual basis are recognized when they become measurable and available and are consequently reflected on Schedules 1, 3, 3-1, and 4, for example. Under GASB 34, we must also reflect those revenues that have become measurable regardless of availability. Record the gross revenues you have earned on Schedule 14, which are not reflected on any of the aforementioned schedules. Then list the allowance for uncollectibles by funding sources.

Using Schedules 3 and 4 please complete the following:

Insert the organization numbers and object code that pertains to the revenue that will have a GASB 34 accrual.

Column A – For Schedule 3 use column V and for Schedule 4 use column VI. This will be the total revenue at 6/30.

Column B – Enter your agency adjustment for the revenue.

Column C – Total of columns A plus B.

Column D – For Schedule 3 use column VI and for Schedule 4 use column VII. This will be the total accounts receivable at 8/14.

Column E – Enter your agency adjustment for the accounts receivable.

Column F – Total of columns D plus E.

Column G – Total of columns C plus F.

Column H – Full accrual gross adjustments to the revenue/receivable for the prior year. These amounts were on the 2007-08 Schedule 14.

Column I – Full accrual allowance amounts for the prior year. These amounts were on the 2007-08 Schedule 14. This should be a negative amount.

Column J – Total of columns H and I.

Column K – Full accrual gross adjustments to the revenue/receivable for the current year. These amounts are from your agency.

Column L – Full accrual allowance amounts for the current year. These amounts are from your agency. This should be a negative amount.

Column M – Total of columns K and L.

Column N – Total of full accrual revenue at 6/30. Subtract column J from C.

Column O – Total of full accrual receivable at 8/14. Add columns F and M.

Column P – Total of columns N plus O.

In the last column, list, by source, the amounts included but not expected to be collected in one year.

Schedule 14A is for GASB 34 expenditure accruals by program.

Using Schedule 1, Section B, please complete the following:

Column A – Schedule 1, column I should be used. This will be the total expenditures at 6/30.

Column B – Enter your adjustments from Schedule 1, columns II and any agency adjustment for the expenditures.

Column C – Total of columns A plus B.

Column D – Use column II of Schedule I. This will be the total accounts payable at 8/14.

Column E – Enter your agency adjustment for the accounts payable.

Column F – Total of columns D plus E.

Column G – Total of columns C plus F.

Column H – Full Accrual gross adjustments to the expenditures/payables from the prior year, if applicable. These amounts may be included in your 2007-08 Schedule 14A.

Column I – Full accrual gross adjustments to the expenditures/payables for the current year. These amounts are from your agency.

Column J – Total of full accrual expenditures at 6/30. Subtract column H from C.

Column K – Total of full accrual payables at 8/14. Add columns F and I.

Column L – Total of columns J plus K.

Note B - This amount must agree with the amounts shown by the State Treasurer. List where these monies are being held – i.e. cash in bank, cash on hand, receivable, or payable.

Note C - Deposits and Investments - The purpose of this note is to disclose the related risk associated with deposits and investments held for the state by financial institutions. Additional instructions are in the back of the packet. (See Appendix A)

1. Deposits with Financial Institutions – We only require disclosure of cash not in the State Treasury. Cash and cash equivalents include only those amounts on deposit in financial institutions and do not include cash on hand or petty cash maintained at your agency.

The total of Cash, Certificates of Deposit, and Other should be your reconciled bank balances at June 30th. The amounts reported in the bank balances section should be the ending balance(s) on your June 30th bank statement(s).

2. Investments - Those investments meeting GASB 31 reporting requirements must be reported at fair value.

If you are reporting investments held outside the State Treasury, you must provide the additional disclosures as requested in Section 3 through 6 of this Note.

Note E – Indicate the inventory at June 30, 2009.

Note F - Total amount of seed(s) must equal the records of the State Treasurer. This should agree with revenue source T220 on the 2G01 report.

Note G - Deferred Revenues will be mainly from Department of Health and Hospitals, Department of Social Services, and Department of Education. This represents the Federal revenue that was received during the fiscal year and not earned.

Note J - Leave balances, both annual and compensatory, **will be sent to you from OSRAP**. LRS 17:425 provides for payment for up to 25 days of unused leave for all employees under the supervision of the Board of Elementary and Secondary Education, or other boards of control of publicly supported educational institutions.

Note M – Sections 1 and 2 of this note apply only to those arrangements in which the agency is the lessee. Revenue leases, those leases where the agency is the lessor, are to be reported on this note in Sections 3 and 4. Do not include intra-agency leases.

Note Q - In-kind contributions are often the result of a non-monetary match for a grant. An example would be the loan of office space by a local government to satisfy a match requirement on a federal grant.

Note R - The totals for this note can be found on the HR Report ZF75, SI Payroll Posting Report (which will be provided by OSRAP to the agencies). Column I must agree with Note R from FY '08. This note impacts Schedule 1 and possibly Schedules 3 and 3-1. **The information will be sent to you from OSRAP.** Remember to list all payroll accruals by program. Regardless of payroll accrual amounts, all sections of this note must be completed.

Note T- You must include any significant activities that occurred after June 30, 2009 that impact your agency and are not already reflected in the financial reports. This will include activities that may impact any subsequent fiscal year's operations and may include impairment of assets, bond sales, settlement of litigation, etc.

Note Z – Since the AFR no longer has a Statement A, include the amount of the agency's prepaid expenses.

Schedule 13 is a recapitulation of the total Interagency Receipts reported as of August 14, 2009.

1. In column I, list the ISIS agency number, if applicable, of the source of revenue.
2. In column II, list the sources of the revenue (i.e. state agency, college, internal service fund, etc.)
3. In column III, enter the amount received from each source for June 30, 2009.
4. In column IV, enter the amount of unclassified cash for each source at June 30, 2009.
5. In column V, enter the amount of accounts receivable for each source received during the 45 day close.
6. In column VI, enter the total revenue received from each source.

TOTALS FOR COLUMNS III, IV, V, AND VI MUST EQUAL SCHEDULE 3, LINE C, COLUMNS III, IV, VI, AND VIII, RESPECTIVELY.

COMPARISON FIGURES

- 1) To assist OSRAP in determining the reason for the change in financial position for the state, please complete the schedule Below. If the change in revenues or expenditures is more than \$3 million from the previous year's figure, explain the reason for the change. (Add additional sheets as necessary for the explanation section.)

	<u>2009</u>	<u>2008</u>	<u>Difference</u>	<u>Percentage Change</u>
Revenues (a)	\$ _____	\$ _____	\$ _____	\$ _____
Expenditures (b)	_____	_____	_____	_____
Explanation for change:	_____ _____			

(a) Revenues must equal the following:

Total revenue on Schedule 3 or Schedule 3-1, if prepared

+ Full current year accrual revenues on Schedule 14

- Full prior year accrual revenues on Schedule 14

+ 2009 Payroll Federal revenue accrual from Note R

- 2008 Payroll Federal revenue accrual from Note R

(b) Expenditures must agree with total expenditures on Schedule 1 or Schedule 3-1, if prepared, **plus** 2009 payroll accrual, **less** 2008 payroll accrual

- 2) To assist OSRAP in determining the reason for the changes in the budget, please complete the schedules below. If the change is more than \$3 million, explain the reason for the difference. (Add additional sheets as necessary for the explanation section.)

	<u>2009 Original Budget (c)</u>	<u>2009 Final Budget (d)</u>	<u>Difference</u>	<u>Percentage Change</u>
Revenues	\$ _____	\$ _____	\$ _____	\$ _____
Expenditures	_____	_____	_____	_____
Explanation of change:	_____ _____			

	<u>2009 Final Budget (d)</u>	<u>2009 Actual (e)</u>	<u>Difference</u>	<u>Percentage Change</u>
Revenues	\$ _____	\$ _____	\$ _____	\$ _____
Expenditures	_____	_____	_____	_____
Explanation of change:	_____ _____			

(c) The original budget amount should equal the budget amount appropriated by the Legislature (Act 19).

(d) The final budget amount should equal the original budgeted amount plus or minus all of the BA7's (revisions) and it can be found on Schedule 1, column 6.

(e) Actual revenues and expenditures can be found on Schedule 1, column 5.

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS FOR THE YEAR ENDED JUNE 30, 20__

INTRODUCTION

The _____ is an agency of the State of Louisiana reporting entity and was created in accordance with Title _____, Chapter _____ of the Louisiana Revised Statutes of 1950 as a part of the _____ branch of government. The _____ is charged with _____ within the State of Louisiana.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The _____ prepares its financial reports in accordance with the procedures established by the Division of Administration. The financial activities of the _____ are accounted for on a fund basis whereby a set of separate, self-balancing accounts are maintained to account for appropriated or authorized activities. The information presented herein, is reported under the modified accrual basis of accounting as prescribed by GAAP for fund level reporting.

The general fixed assets and long-term obligations of the agency are not recognized in the accompanying financial reports presented at fund level. All capital assets of the primary government are, however, reported at the government-wide level of reporting, as required by GAAP.

Annually the State of Louisiana issues a comprehensive annual financial report, which includes the activity contained in the accompanying financial reports. The comprehensive annual financial report is audited by the Louisiana Legislative Auditor.

1. FUND ACCOUNTING

General Operating Appropriations - The General Operations Fund is used to account for all general and auxiliary fund appropriated operating expenditures and minor capital acquisitions. All appropriated general and auxiliary operations revenue is accounted for in this fund.

Non-Appropriated Funds (describe each Non-Appropriated Fund)

Major State Revenues and Income Not Available - The agency collects major state revenues that are remitted to the State Treasury for deposit to statutorily dedicated funds. In addition, the agency collects funds specifically identified by the Division of Administration - Budget Office as Income Not Available that are remitted to the State Treasury. These amounts are not available to the agency for expenditure and are detailed on Schedule 4.

Payroll Clearing Fund - The Payroll Clearing Fund is used to account for payroll deductions and accrued benefits.

The non-appropriated funds relating to Major State Revenues, Income Not Available and Payroll Clearing are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS FOR THE YEAR ENDED JUNE 30, 20__

For purposes of this report presentation, collections in excess of Appropriated Means of Financing are shown on Schedule 3.

2. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures are recognized and reported in the financial reports. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the _____ are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration - Office of Statewide Reporting and Accounting Policy as follows:

Revenues - State General Fund and Interim Emergency Board appropriations are recognized as the net amount warranted during the fiscal year including the 45-day close period. Fees and self-generated revenues, interagency transfers, federal funds, intrafund revenues, non-appropriated revenues, and other financing sources (with the exception of agency funds) are recognized in the amounts earned, to the extent that they are both measurable and available. (Describe other basis of revenue recognition, which differs from this.)

Expenditures - Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except that obligations of employees' vested annual and sick leave are recorded as expenditures when paid. (List any other exceptions.)

B. IMPREST FUNDS

The agency maintains a permanent Travel and Petty Cash Imprest Fund in the amount of \$_____ as authorized by the Commissioner of Administration and advanced by the State Treasurer's Office (STO) in accordance with Title 39. The funds are permanently established and periodically replenished from agency operating funds when expenditure vouchers are presented. At June 30, 20____, the petty cash consists of:

- Cash in Bank Accounts \$_____
- Petty Cash on Hand \$_____
- Other Receivables \$_____

C. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

1. DEPOSITS WITH FINANCIAL INSTITUTIONS (CASH NOT IN STATE TREASURY)

For reporting purposes, deposits with financial institutions include savings, demand deposits, time deposits, and certificates of deposit. Under state law the _____ (agency) may deposit funds with a fiscal agent bank selected and designated by the Interim Emergency Board. Further, the agency may invest in time certificates of deposit in any bank domiciled or having a branch office in the State of Louisiana, savings accounts or shares of savings and loan associations and savings

STATE OF LOUISIANA

(Agency)

**NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__**

banks, and in share accounts and share certificate accounts of federally or state chartered credit unions.

Deposits in bank accounts are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These pledged securities should be held in a custodial bank in the name of the agency under the account of the pledging fiscal agent bank in a holding or custodial bank. The State Treasurer's Office or agency receives safekeeping receipts or an acknowledgement of the pledge of securities from the custodial bank.

GASB Statement 40 amended GASB Statement 3 to eliminate the requirement to disclose deposits that are insured with no custodial credit risk. GASB Statement 40 requires only the separate disclosure of deposits that are considered to be exposed to custodial credit risk. An entity's deposits are exposed to custodial credit risk if the deposit balances are either 1) uninsured and uncollateralized, 2) uninsured and collateralized with securities held by the pledging financial institution, or 3) uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the entity's name.

The deposits at June 30, 20__, consisted of the following:

	<u>Cash</u>	<u>Nonnegotiable Certificates of Deposit</u>	<u>Other (Describe)</u>	<u>Total</u>
Balance per agency books	\$ _____	\$ _____	\$ _____	\$ _____
Deposits in bank accounts per bank	\$ _____	\$ _____	\$ _____	\$ _____

**Bank balances of deposits exposed to
custodial credit risk:**

a. Deposits not insured and uncollateralized	\$ _____	\$ _____	\$ _____	\$ _____
b. Deposits not insured and collateralized with securities held by the pledging institution	_____	_____	_____	_____
c. Deposits not insured and collateralized with securities held by the pledging institution's trust department or agent <u>but not in the entity's name</u>	_____	_____	_____	_____

NOTE: The "Deposits in bank accounts per bank" will not necessarily equal the "Balance per agency books".

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

The following is a breakdown by banking institution, program, and amount of "Deposits in bank accounts per bank" balances as shown above:

	<u>Banking institution</u>	<u>Program</u>	<u>Amount</u>
1.	_____	_____	\$ _____
2.	_____	_____	_____
3.	_____	_____	_____
4.	_____	_____	_____
Total			\$ _____

2. INVESTMENTS

The agency does (does not) maintain investment accounts as authorized by _____ (note legal provisions authorizing investment by the agency).

A. Custodial Credit Risk

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured, not registered in the name of the entity, and are held by either a counterparty or held by a counterparty's trust department or agent but not in the entity's name. Repurchase Agreements are not subject to credit risk if the securities underlying the repurchase agreement are exempt from credit risk disclosure.

Beginning with fiscal year ending June 30, 2004, GASB Statement 40 amended GASB Statement 3. GASB Statement 40 requires only the separate disclosure of investments that are considered to be exposed to custodial credit risk. Those investments exposed to custodial credit risk are reported by type in one of two separate columns depending upon whether they are held by a counterparty, or held by a counterparty's trust department or agent, not in the entity's name. In addition, the total amount and fair value columns still must include total investments (regardless of exposure to custodial credit risk). Using the following table, list each type of investment disclosing the carrying amount, market value, and applicable exposure to custodial credit risk:

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

<u>Type of Investment</u>	<u>Investments Exposed to Custodial Credit Risk</u>		<u>All Investments Regardless of Custodial Credit Risk Exposure</u>

* Unregistered - not registered in the name of the government or entity

** These obligations generally are not exposed to custodial credit risk because they are backed by the full faith and credit of the U.S. government. (See Appendix A for the definition of U.S. Government Obligations)

3. DERIVATIVES

The _____(agency) does (does not) maintain investments in derivatives as part of its investment policy. If so, list the exposure to risks from these investments as follows:
Credit risk _____
Market risk _____
Legal Risk _____

Technical Bulletin 2003-1 requires certain note disclosures for derivatives that are not reported at fair value on the statement. See Appendix A for more details and disclose any of the required note disclosures below, if applicable.

STATE OF LOUISIANA

(Agency)

**NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__**

**4. CREDIT RISK, INTEREST RATE RISK, CONCENTRATION OF CREDIT RISK, AND
FOREIGN CURRENCY RISK DISCLOSURES**

A. Credit Risk of Debt Investments

Disclose the credit risk of debt investments by credit quality ratings as described by rating agencies as of the fiscal year end, including the rating agency used (Moody's, S & P, etc.). All debt investments regardless of type can be aggregated by credit quality rating (if any are unrated, disclose that amount).

<u>Rating Agency</u>	<u>Rating</u>	<u>Fair Value</u>
	\$	
	Total	\$

B. Interest Rate Risk

1) Disclose the interest rate risk of debt investments by listing the investment type, total fair value, and breakdown of maturity in years for each debt investment type. (Note – Total debt investments reported in this table should equal total debt investment reported in Section A – Credit Risk of Debt Investments.)

<u>Type of Debt Investment</u>	<u>Fair Value</u>	<u>Investment Maturities (in Years)</u>			
		<u>Less Than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>Greater Than 10</u>
U.S. Government obligations	\$	\$	\$	\$	\$
U.S. Agency obligations					
Mortgage backed securities					
Collateralized mortgage obligations					
Corporate bonds					
Other bonds					
Mutual bond funds					
Other					
Total debt investments	\$	\$	\$	\$	\$

2) List the fair value and terms of any debt investments that are highly sensitive to changes in interest rates due to the terms of the investment (e.g. coupon multipliers, reset dates, etc.). See Appendix A for examples of debt investments that are highly sensitive to changes in interest rates.

<u>Debt Investment</u>	<u>Fair Value</u>	<u>Terms</u>
	\$	
Total	\$	

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

C. Concentration of Credit Risk

List, by amount and issuer, investments in any one issuer that represents 5% or more of total external investments (not including U.S. government securities, mutual funds, and investment pools).

<u>Issuer</u>	<u>Amount</u>	<u>% of Total Investments</u>
_____	\$ _____	_____
_____	_____	_____
_____	_____	_____
Total	\$ _____	

D. Foreign Currency Risk

Disclose the U.S. dollar balances of any deposits or investments that are exposed to foreign currency risk (deposits or investments denominated in foreign currencies). List by currency denomination and investment type, if applicable.

<u>Foreign Currency</u>	<u>Fair Value in U.S. Dollars</u>	
	<u>Bonds</u>	<u>Stocks</u>
_____	\$ _____	\$ _____
_____	_____	_____
_____	_____	_____
Total	\$ _____	\$ _____

5. POLICIES

Briefly describe the deposit and/or investment policies related to the custodial credit risk, concentration of credit risk, and foreign currency risk disclosed in this note. If no policy exists concerning the risks disclosed, please state that fact.

6. OTHER DISCLOSURES REQUIRED FOR INVESTMENTS - HELD OUTSIDE STO

- Investments in pools managed by other governments or mutual funds _____
- Securities underlying reverse repurchase agreements _____
- Unrealized investment losses _____
- Commitments as of June 30, ____, to resell securities under yield maintenance repurchase agreements: _____

STATE OF LOUISIANA

(Agency)

**NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__**

1. Carrying amount and market value at June 30 of securities to be resold_____
2. Description of the terms of the agreements_____
- e. Losses during the year due to default by counterparties to deposit or investment transactions _____
- f. Amounts recovered from prior-period losses _____

Legal or Contractual Provisions for Reverse Repurchase Agreements

- g. Source of legal or contractual authorization for use of reverse repurchase agreements _____
- h. Significant violations of legal or contractual provisions for reverse repurchase agreements that occurred during the year _____

Reverse Repurchase Agreements as of June 30

- i. Credit risk related to the reverse repurchase agreements (other than yield maintenance agreements) outstanding at balance sheet date, that is, the aggregate amount of reverse repurchase agreement obligations including accrued interest compared to aggregate market value of the securities underlying those agreements including interest _____
- j. Commitments on June 30, ____, to repurchase securities under yield maintenance agreements _____
- k. Market value on June 30, ____, of the securities to be repurchased _____
- l. Description of the terms of the agreements to repurchase_____
- m. Losses recognized during the year due to default by counterparties to reverse repurchase agreements _____
- n. Amounts recovered from prior-period losses _____

Fair Value Disclosures

- o. Methods and significant assumptions used to estimate fair value of investments, if fair value is not based on quoted market prices _____
- p. Basis for determining which investments, if any, are reported at amortized cost _____

STATE OF LOUISIANA

(Agency)

**NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__**

- q. For investments in external investment pools that are not SEC-registered, a brief description of any regulatory oversight for the pool _____
- r. Whether the fair value of your investment in the external investment pool is the same as the value of the pool shares _____
- s. Any involuntary participation in an external investment pool _____
- t. If you are unable to obtain information from a pool sponsor to determine the fair value of your investment in the pool, methods used and significant assumptions made in determining fair value and the reasons for having had to make such an estimate _____
- u. Any income from investments associated with one fund that is assigned to another fund _____

Land and Other Real Estate Held as Investments by Endowments

- v. **Does your agency own land or other real estate held as investments by endowments?** _____ (yes or no) **Any applicable fair value note disclosures associated with land or real estate held as investments by endowments is reported in the Fair Value Disclosures section above.**

D. GENERAL FIXED ASSETS – CAPITAL LEASES ONLY

List individually those items of movable property with a value of \$5,000 or above (attach additional sheets as needed) and those buildings with a value of \$100,000 or above that are capital leases (See definition on page 13). We no longer need a complete list of General Fixed Assets.

Description of Item	Movable Property Tag No.	Date Acquired	Historical Cost of Each Item
_____	_____	_____	\$ _____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

E. INVENTORY OF MATERIALS AND SUPPLIES

In general, inventories are recorded as expenditures when purchased. The value of inventory, determined under (perpetual or periodic) inventory system using the (FIFO, LIFO, etc.) valuation method, at June 30, 2009, is \$_____. NOTE: Do not count postage as inventory, but include it in prepayments, if material.

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

F. SEEDS

The agency is in receipt of a seed in the amount of \$_____ as authorized by the joint approval of the State Treasurer and the Commissioner of Administration and drawn against the State Treasurer. The seed represents a liability to the unit and must be repaid if not reauthorized annually.

The breakdown of such advances by unit are as follows:

	<u>Fund/ Program</u>	<u>Date Authorized</u>	<u>Amount</u>
1.	_____	_____	\$ _____
2.	_____	_____	_____
3.	_____	_____	_____
4.	_____	_____	_____
Total			\$ _____

G. DEFERRED REVENUE

Deferred revenue represents revenue (generally federal) that was received during fiscal year 2009 and not yet earned. Certain federal grants may fit this description. The deferred revenue amount(s) is/are \$_____(federal), \$_____(self-generated), and/or \$_____(IAT) at 6/30/xx. Adjustments to reduce revenue have/have not (circle one) been recorded on Schedule 3.

H. OPERATING AND CAPITAL GRANTS FOR GASB 34 PRESENTATION

For OSRAP to complete the GASB 34 presentation, provide the following: the total operating grants and contributions were \$_____ and the total capital grants and contributions were \$_____.

1) Operating Grants – represent total amount of grant revenues for the year that are restricted by the grantor for operating purposes or that may be used for either capital or operating purposes at the discretion of the grantee.

2) Capital Grants – represent the total amount of the revenues for the year from grants restricted by the grantor for the acquisition, construction, or renovation of capital assets.

The sum of both should equal total federal revenues plus federal accruals. Occasionally the state may receive non-operating federal grants.

I. JUDGMENTS, CLAIMS, AND SIMILAR CONTINGENCIES

Obligations and losses arising from judgments, claims, and similar contingencies are paid through the state's self-insurance fund and are not reflected in the accompanying special purpose financial reports. The self-insurance fund is operated by the Office of Risk Management, the state agency responsible for the state's risk management program.

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

Liability for claims and judgments should include specific incremental claim expenditures/expenses, if known, or if it can be estimated (e.g., legal fees for outside legal assistance).

NOTE: Should you have claims which have not been submitted to Risk Management, include a schedule of these claims.

Claims and litigation cost of \$_____ were incurred in the current year.

Disclose any guarantee of indebtedness even if there is only a remote chance that the government will be called on to honor its guarantee.

Those agencies collecting federal funds, which have been informed that certain of their previously claimed costs were disallowed, should disclose the requested information in the schedule shown below. Show each possible disallowance separately.

<u>Program</u>	<u>Date of Disallowance</u>	<u>Amount</u>	<u>Probability Of Payment*</u>	<u>Estimated Settlement Amount**</u>
1. _____	_____	\$ _____	_____	\$ _____
2. _____	_____	_____	_____	_____
3. _____	_____	_____	_____	_____
4. _____	_____	_____	_____	_____

* Reasonably possible, probable, or remote

** Include estimated liability amount if known

J. LEAVE

1. Annual and Sick Leave

Employees earn and accumulate annual and sick leave at various rates depending on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, employees or their heirs are compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is used to compute retirement benefits. Act 343 of 1993 allows members of the Louisiana State Employees' Retirement System, upon application for retirement, the option of receiving an actuarially determined lump sum payment for annual and sick leave which would otherwise have been used to compute years of service for retirement. The liability for unused annual leave payable at June 30, 20 __, computed in accordance with the Codification of Governmental Accounting and Financial Reporting Standards Section C60.104, is estimated to be \$_____.

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

Civil Service General Circular Number 001155 states that classified employees belonging to the Teacher's Retirement System of Louisiana and to the Louisiana School Employee's Retirement System are not eligible for payment of unused sick leave upon retirement or death. L.R.S. 17:425 on the other hand provides for payment for up to 25 days of unused sick leave for members of these two systems. In Opinion Number 94-373, the Attorney General opined that the Civil Service Commission had jurisdiction over classified employees and therefore those members are not eligible for payment of unused sick leave. Because the Commission has no authority over unclassified employees, those members are eligible to receive such compensation. Also, LSA-R.S. 17:425 applies to all retirement systems for teachers and employees of any parish or city school board, the State Board of Elementary and Secondary Education, or other boards of control of publicly supported educational institutions. Should you have employees who upon retirement (or their heirs upon the employee's death) are compensated for up to 25 days of unused sick leave, disclose the liability. The liability for this unused sick leave payable at June 30, 20__ is \$_____.

2. Compensatory Leave (Use for Non-Exempt Employees)

Employees who are considered having non-exempt status according to the guidelines contained in the Fair Labor Standards Act may be paid for compensatory leave earned (K-time). Upon termination or transfer an employee will be paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour-for-hour compensatory leave earned. Compensation paid will be based on the employee's hourly rate of pay at termination or transfer. The liability for accrued payable compensatory leave at June 30, 20__ computed in accordance with the Codification of Governmental Accounting and Financial Reporting Standards, Section C60.104 is estimated to be \$_____.

K. **NOT USED**

L. ENCUMBRANCES

The following are multi-year contracts whose payments are to be liquidated with statutorily dedicated funds **only**: (Show each year separately). The General Fund is not shown. An example would be certain payments made by the Department of Natural Resources. Obligations are made against the Coastal Protection and Restoration Fund for contracts, which are let for two to five years in the future. Be sure that you do not double count cooperative endeavors that are reported on Schedule 16.

Examples:

Conservation Fund _____

Lottery Proceeds Fund _____

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

M. LEASE AND RENTAL COMMITMENTS

Lease agreements, if any, have non-appropriation exculpatory clauses that allow lease cancellation if the Legislature does not make an appropriation for its continuation during any future fiscal period. Total operating lease expenditures for fiscal year 2008-2009 amounted to \$_____.

1. OPERATING LEASES – Do not include leases on state office buildings financed through Office Facilities Corporation

Operating leases are all leases which do not meet the criteria of a capital lease. Operating leases are grouped by nature (i.e. office space, equipment, etc.) and the annual rental payments for the next five fiscal years are presented in the following schedule. (Note: If lease payments extend past FY 2024, create additional columns and report these future minimum lease payments in five year increments.)

Nature of lease	FY2010	FY2011	FY2012	FY2013	FY2014	FY 2015 -2019	FY 2020 -2024
a. Office space	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____
b. Equipment	_____	_____	_____	_____	_____	_____	_____
c. Land	_____	_____	_____	_____	_____	_____	_____
d. Other	_____	_____	_____	_____	_____	_____	_____
Total	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____	\$ _____

NOTE: Where five-year amounts are requested, please list the total amount (sum) for the five-year period, not the annual amount for each of the five years.

Rental expense for operating leases with scheduled rent increases is based on the relevant lease agreement except in those cases where a temporary rent reduction is used as an inducement to enter the lease. In those instances, rental expense is determined on either a straight-line or interest basis over the term of the lease, as required by GASB 13, and not in accordance with lease terms. The agency does (does not) have leases with scheduled rent increases due to temporary rent reductions used as an inducement to enter the lease. [If the agency does have leases with scheduled rent increases, attach a schedule listing all such leases.]

2. CAPITAL LEASES AND LEASE PURCHASES - Do not include leases on state office buildings financed through Office Facilities Corporation

Capital leases are defined as an arrangement in which any one of the following conditions apply (1) ownership transfers by the end of the lease, (2) the lease contains a bargain purchase option, (3) the lease term is 75% of the asset life or (4) the discounted minimum lease payments are 90% of the fair market value of the asset.

Schedule A should be used to report all capital leases including new leases in effect as of 6/30/09. In Schedule B, report only those new leases entered into during fiscal year 2008-2009. Note: LEAF leases should not be included in these schedules.

STATE OF LOUISIANA

(Agency)

3. REVENUE LEASES

LESSOR DIRECT FINANCING LEASES

A lease is classified as a direct financing lease when (1) any one of the four capitalization criteria used to define a capital lease for the lessee is met and (2) both the following criteria are satisfied:

- Collectability of the minimum lease payments is reasonably predictable.
- No important uncertainties surround the amount of the unreimbursable costs yet to be incurred by the lessor under the lease.

Provide a general description of the direct financing agreement, and complete the schedule below.

<u>Composition of lease</u>	<u>Minimum lease payment receivable</u>	<u>Remaining interest to end of lease</u>	<u>Remaining principal to end of lease</u>

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

Minimum lease payments do not include contingent rentals, which may be received as stipulated in the lease contracts. Contingent rental payments occur if, for example, the use of the equipment, land, or building etc., exceeds a certain level of activity each year. Contingent rentals received for fiscal year 2009 were \$ _____ for office space, \$ _____ for equipment, and \$ _____ for land.

The agency received lease revenues for _____. Total revenues for fiscal year 2008- 2009 totaled \$ _____. The following is a schedule by years of minimum lease receivables for the succeeding fiscal years as of June 30, 2009: (Note: If receivables extend past FY 2029, create additional rows and report these future receivables in five year increments.)

Minimum Lease Receivables

2010	\$ _____
2011	_____
2012	_____
2013	_____
2014	_____
2015-2019	_____
2020-2024	_____
2025-2029	_____
Total	\$ _____

4. LESSOR - Operating Lease

When a lease agreement does not satisfy at least one of the four criteria for reporting as a capital lease (common to both lessee and lessor accounting), and both of the criteria for a lessor (collectability and no uncertain reimbursable costs), the lease is classified as an operating lease. In an operating lease, there is no simulated sale and the lessor simply records rent revenues as they become measurable and available.

Provide the cost and carrying amount, if different, of property on lease or held for leasing organized by major class of property and the amount of accumulated depreciation as of June 30, ____.

	Cost	Accumulated Depreciation	Carrying Amount
a. Office space	\$ _____	\$ _____	\$ _____
b. Equipment	_____	_____	_____
c. Land	_____	_____	_____
Total	\$ _____	\$ _____	\$ _____

Total minimum future rentals	\$ _____	\$ _____	\$ _____	\$ _____

Current year lease revenues received in fiscal year _____ totaled \$ _____.
Contingent rentals received from operating leases for fiscal year 2009 were \$ _____ for
office space, \$ _____ for equipment, and \$ _____ for land.

N. RELATED PARTY TRANSACTIONS

List all related party transactions as defined by FASB 57 including the description of all relationships, the transactions, the dollar amount of the transactions and any amounts to or from which result from related party transactions.

O. ON-BEHALF PAYMENTS FOR FRINGE BENEFITS AND SALARIES

On-behalf payments for fringe benefits and salaries are direct payments made by one entity to a third-party recipient for the employees of another, legally separate entity. One of the two entities party to on-behalf payments for fringe benefits and salaries may be a non-governmental entity. On-behalf payments include pension plan contributions, employee health and life insurance premiums, and salary supplements or stipends.

1. Reporting:
 - a. Employer Entity:

The amount of revenues recognized (received) during the year plus any receivables at year end by third-party recipients for fiscal year _____ is \$ _____.

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

The amount of expenditures/expenses when the employer entity is not legally obligated to make payments is recognized as the amount of revenues recognized.

The amount of expenditures/expenses recognized for fiscal year _____ is \$_____.

The amount of expenditures/expenses when the employer entity is legally obligated to make payments is recognized based on the accounting standards applicable to that type of transaction. For example, if contributions are made to a pension plan, the expenditure/expense should be recognized following pension accounting standards. The amount of expenditures/expenses recognized for fiscal year _____ is \$_____.

b. Paying Entity:

A paying entity would not recognize any revenues for on-behalf payments for fringe benefits.

The amount of expenditures/expenses should be recognized in the same manner that the entity recognizes classifies similar cash grants to other entities. The amount of expenditures/expenses recognized for fiscal year _____ is \$_____.

2. Disclosure:

The following on-behalf payments that are contributions to a pension plan for which the agency is not legally responsible are:

<u>Contributor</u>	<u>Pension Plan</u>	<u>Amount</u>
_____	_____	\$ _____
_____	_____	_____
_____	_____	_____
_____	_____	_____

P. PASS-THROUGH GRANTS

Pass-through grants are grants and other forms of financial assistance received by governmental entities to be transferred to or spent, according to legal or contractual requirements, on behalf of secondary recipients, which may or may not be governmental entities or agencies. Report only the pass-through grants that are in the agency's revenue and expenditure statements in this packet. Do not report pass-through arrangements in this note where the state functions as a pure cash conduit. To function as a pure cash conduit, the state must have no administrative involvement with the program, and the state may have no direct financial involvement with the grant program. Pure cash conduits should be reported in the Escrow Fund (Schedule 6-1.) Separate each type of grant and provide totals. Pass-through grants are grants which meet any of the following criteria:

STATE OF LOUISIANA

(Agency)

**NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__**

- a) The government entity monitors secondary recipients for compliance with program requirements.
- b) The governmental entity determines secondary recipients' eligibility even if the grantor's eligibility criteria are used.
- c) The governmental entity is able to determine how grant funds are to be allocated.
- d) The governmental entity has direct financial involvement in administration of the grant, such as financing part of the program costs for matching purposes or being liable for disallowed costs. This does not apply to incidental administrative costs.

<u>Grant Name</u>	<u>Federal Identification Number</u>	<u>Amount</u>
_____	_____	\$ _____
_____	_____	_____
_____	_____	_____
Total		\$ _____

Q. IN-KIND CONTRIBUTIONS

List all in-kind contributions that are not included in the accompanying financial reports.

<u>In-Kind Contributions</u>	<u>Cost/Estimated Cost/ Fair Market Value as Determined by Grantor</u>
_____	\$ _____
_____	_____
_____	_____
Total	\$ _____

(NOTE: In-kind contributions represent things of value donated or received by your agency from an outside source which would otherwise create an expenditure to the agency if the agency was required to purchase the goods or services from current resources. Examples are 1) pharmacy items donated to a state hospital from a pharmaceutical company, 2) food items donated to a state prison from the U.S. Department of Agriculture, or 3) donated fixed assets, recorded at fair market value, and also recorded in general capital assets. Do not include, within the in-kind contribution, funds contributed by local governments or nonprofit organizations to provide program matching shares.

R. PAYROLL AND RELATED BENEFITS ACCRUAL

Agencies will be required to reflect the 2008-2009 accrued personal services cost for this fiscal year on the accompanying financial reports. The following schedule will aid you in doing so. As most agency units pay their employees biweekly this would require a fiscal year 2007-08 accrual calculation based on eleven (11) days and the fiscal year 2008-09 calculation will be based on twelve (12) days. Agencies must also determine the federal match on this accrual calculation. Agencies must submit the payroll accrual by program.

Total government-mandated nonexchange transactions (grants)			\$

T. SUBSEQUENT EVENTS (Describe)

U. INFRASTRUCTURE

Infrastructure is defined as long-lived capital assets associated with governmental activities that normally are stationary in nature and can be preserved for a significantly greater number of years than most capital assets. Examples include roads, bridges, tunnels, street signage, street lamps, traffic signals, drainage systems, water and sewer systems, dams, and lighting systems.

Each agency with infrastructure assets is required to track infrastructure expenditures to determine if the year's expenditures would be above the \$3 million threshold, per agency per year. List individually those infrastructure items that comprise the capitalized amount of \$3 million, per agency for fiscal year 2009, per infrastructure asset:

<u>Description of Infrastructure</u>	<u>Cost</u> \$

FOR THE YEAR ENDED JUNE 30, 20__

V. LAND AND LAND IMPROVEMENTS (not reported to State Land Office or Facility Planning and Control)

Some agencies may acquire land or make land improvements that are not reported to the State Land Office or Facility Planning and Control. Land improvements are those betterments, improvements, and site preparations that ready land for its intended use. Some examples of land improvements would be excavation, filling, grading, and demolition of existing buildings, and removal or relocation of other property (telephone or power lines). Other land improvements are built or installed to enhance or facilitate the use of the land for a particular purpose and may include walking paths and trails, fences and gates, landscaping, sprinkler systems, fountains, and beaches. Land and land improvements should be reported at cost, estimated cost, or estimated fair value at date of acquisition and should include all expenses necessary to obtain title such as legal fees.

List individually all land acquisitions and any improvements to land that the agency has made during the fiscal year that is not reported to the State Land Office or Facility Planning and Control:

<u>Description of Land or Improvement</u>	<u>Cost</u>
_____	\$ _____
_____	_____
_____	_____
_____	_____

W. IMPAIRMENT OF CAPITAL ASSETS AND INSURANCE RECOVERIES

GASB 42 establishes accounting and financial reporting standards for impairment of capital assets and for insurance recoveries. Governments are required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. A capital asset generally should be considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset. See Appendix B for more information on GASB 42 and Impairment of Capital Assets.

Please complete the schedule below for buildings and movable property that were permanently impaired in FY 2009. Insurance recoveries should be used to offset those impairment losses if received in the same year as the impairment. Include these insurance recoveries in the sixth column in the schedule below. {There are five different indicators of impairment described in Appendix B, (1) Physical damage, (2) enactment of laws, etc. List the appropriate number (1-5) to identify the indicator of impairment in the last column.}

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

<u>Building ID or Type of Movable Property or Equip.</u>	<u>Tag # (if applicable)</u>	<u>Estimated Restoration Cost</u>	<u>Orig.Cost + Additions & Modifications</u>	<u>Replace- ment Value</u>	<u>Insurance Recovery in the Same FY</u>	<u>Indicator of Impairment</u>

If your entity has capitalized infrastructure assets (expenditures of \$3 million per agency per year) that have been impaired as described in Appendix B, please provide the following information:

<u>Description</u>	<u>Amount of Impairment Loss Before Insurance</u>	<u>Insurance Recovery in Same Year</u>	<u>Net Impairment Loss</u>	<u>Indicator of Impair- ment</u>	<u>Reason for Impairment (e.g., hurricane)</u>

Insurance recoveries received in FY 08-09 related to impairment losses occurring in previous years, and insurance recoveries received in FY 08-09 other than those related to impairment of capital assets, should be reported as program revenues, nonoperating revenues, or extraordinary items, as appropriate. Indicate in the following schedule the amount, revenue organization, and source code of insurance recoveries not included in the schedule above.

<u>Type of Asset</u>	<u>Amount of Insurance Recovery</u>	<u>Revenue Organization</u>	<u>Revenue Source Code</u>	<u>Reason for Insurance Recovery (e.g., fire)</u>
Buildings				
Movable Property				
Infrastructure				

The carrying amount of impaired capital assets that are idle at year-end should be disclosed, regardless of whether the impairment is considered permanent or temporary. The following capital assets were idle at the end of the fiscal year. (Include any permanently impaired capital assets listed above that were idle at the end of the fiscal year, any temporarily impaired capital assets, and any assets impaired in the prior years that are still idle at the end of the current fiscal year. If the carrying value of the capital assets is unknown, indicate "unknown".)

X. CAPITALIZED SOFTWARE

Currently, computer software is not required to be recorded in InCircuit's Asset Management System (Protégé); however, some entities use Protégé for recording computer software. Computer software under OSRAP's threshold of \$1 million should not be considered part of the State's movable property. In order for OSRAP to determine the amount of computer software in Protégé that should not be included in the State's movable property, please provide the following for all computer software recorded in Protégé with an acquisition cost between \$5,000 and \$1 million:

<u>Software Name (as it Appears in Protégé)</u>	<u>Asset #</u>	<u>Acquisition Cost</u>
_____	_____	\$ _____
_____	_____	_____
_____	_____	_____
	Total	\$ _____

If your entity has purchased or licensed computer software with an acquisition cost of at least \$1,000,000 that is not recorded in Protégé, please provide the following: (Note: To prevent OSRAP from double counting, only list software meeting the \$1 million threshold that is not in Protégé.)

Y. REVENUES - PLEDGED OR SOLD (GASB 48)

1. PLEDGED REVENUES

Pledged revenues are specific revenues that have been formally committed to directly collateralize or secure debt of the pledging government, or directly or indirectly collateralize or secure debt of a component unit. **Pledged revenues are revenue bonds that the State Bond Commission or the Louisiana Public Facilities Authority has authorized in your agency's name or in your agency's behalf.** Pledged revenues must be disclosed for each period in which the secured debt remains outstanding and for each secured debt issuance. **Please prepare a separate Note Y for each secured debt issued.**

Provide the following information about the specific revenue pledged:

a. Identify the specific pledged revenue:

- Specific pledged revenue is _____
- Debt secured by the pledged revenue (amount) _____
- Approximate amount of pledge _____
(equal to the remaining principal and interest requirements)

b. Term of the commitment: _____

[number of years (beginning and ending dates by month and year) that
the revenue will not be available for other purposes]

c. General purpose for the debt secured by the pledge: _____

d. Relationship of the pledged amount to the specific revenue: _____

(the proportion of the specific revenue that has been pledged)

e. Comparison of the pledged revenues (current year information):

- Principal requirements _____
- Interest requirements _____
- Pledged revenues recognized during the period _____
(gross pledged revenue minus specified operating expenses)

NOTE: For any new revenue bonds, please send a copy of the following sections of the official bond statement

- Cover page
- Introductory statement
- **Amortization schedule – terms and conditions**
- Plan of financing
- Security for the bond (pledged revenue information)

2. FUTURE REVENUES REPORTED AS A SALE

Future revenues reported as a sale are proceeds that an agency/entity received in exchange for the rights to future cash flows from specific future revenues and for which the agency/entity's continuing involvement with those revenues or receivables is effectively terminated. (See Appendix D)

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

Provide the following information in the year of the sale ONLY:

a. Identify the specific revenue sold:

- the revenue sold is _____
- the approximate amount _____
- significant assumptions used in determining the approximate amount _____

b. Period of the sale: _____

c. Relationship of the sold amount to the total for that specific revenue _____

d. Comparison of the sale:

- proceeds of the sale _____
- present value of the future revenues sold _____
- significant assumptions in determining the present value _____

Z. PREPAID EXPENSES AND ADVANCES

Certain items are commonly paid for in advance. Examples are insurance premiums and rent. If your prepayments, along with your other adjustments, exceed the materiality levels as discussed on page two of the cover letter, you should disclose this amount below. The amount of prepaid expenses, including postage, for this agency at June 30, 20__ is \$_____.

Advances are monies given to providers for services to be performed at a future date. The amount of advances, for this agency at June 30, 20__ is \$_____.

AA. POLLUTION REMEDIATION OBLIGATIONS (Governmental Funds)

Since governmental funds do not accumulate resources for eventual payment of unmatured general long-term indebtedness, do not include these amounts in your financial statements. Please identify any pollution remediation obligations for which goods and services have been received but for which payment will be made during the 45-day close period.

Project #	Location	Agency share of cost (%)	Amount to be paid in 45-day close

These "long-term" amounts are however needed for government-wide presentation (GASB 34). Please identify any amounts that will be paid for after the 45-day close period and/or in following fiscal periods.

STATE OF LOUISIANA

(Agency)

NOTES TO THE FINANCIAL REPORTS
FOR THE YEAR ENDED JUNE 30, 20__

Project #	Location	Agency share of cost (%)	Amount to be paid in subsequent fiscal year

GASB 49 requires that capital assets (facilities, equipment, etc.) purchased solely for remediation activities be expensed in the year purchased. Cost of capital assets that have a useful life after remediation is completed should be pro-rated based on the remaining life of the asset. Identify all capital assets purchased for pollution remediation activities that were fully or partially expended during the current fiscal year.

Asset	Related project	Post- remediation useful life	Total cost of asset

Disclosures

For recognized pollution remediation liabilities and recoveries of pollution remediation outlays, disclose the following:

- a. The nature and source of pollution remediation obligations (for example, federal, state, or local laws or regulations)
- b. The amount of the estimated liability (if not apparent from the financial statements), the methods and assumptions used for the estimate, and the potential for changes due to, for example, price increases or reductions, technology, or applicable laws or regulations
- c. Estimated recoveries reducing the liability.

For pollution remediation liabilities, or portions thereof, that are not yet recognized because they are not reasonably estimable, disclose a general description of the nature of the pollution remediation activities.

SAMPLE disclosure: (This is a sample disclosure. Adapt as necessary to fit your specific agency.)

At June 30, 2009, _____ (agency) was a responsible party in the remediation of _____ (friable asbestos, leaking underground fuel storage tank, etc.). A site assessment and preliminary evaluation of required remediation indicated a liability of \$ _____. This liability is not reported in the balance sheet because it is not payable with current financial resources. _____ (agency) paid \$ _____ for current fiscal year remediation activities.

**INFORMATION FOR NOTE C - DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS
(GASB Statement 3 Amended by GASB Statement 40 and Technical Bulletin 2003-1)**

I. Purpose:

Note C provides the required disclosures about the governmental entities' deposits with financial institutions and investments. The disclosures required for deposits and investments as of the fiscal year ended date provides information about the credit risk and market risk of the deposits and investments and are designed to provide users of the financial statements information about the potential for losses associated with the deposits and investments. GASB Statement 40 has modified or eliminated portions of GASB Statement 3 including:

- modified the custodial credit risk disclosures of Statement 3 for deposits and investments to limit the required disclosure to only those exposed to custodial credit risk (similar to GASB 3's category 3).
- established or modified disclosure requirements related to concentrations of credit risk of investments, credit risk of debt investments, and interest rate risks of debt investments (including sensitivity to changes in interest rates), and
- established disclosure requirements for foreign currency risks for both deposits and investments.

Although GASB Statement 40 eliminated some of the disclosures required for custodial credit risk (the three categories for example), the total reported amounts of all deposits and investments must still be reported.

II. Comparison of amounts disclosed per requirements in Note C to amounts shown on the Balance Sheet (if Balance Sheet is required as part of AFR packet):

- Because the Balance Sheet reports cash and cash equivalents and investments and the note discloses deposits and investments, the amounts of cash and investments on the balance sheet will not be classified exactly the way they would be classified in Note C.
- "Deposits with Financial Institutions" and "Investments" in Note C may be reported on the balance sheet using titles or line items that are different than those in Note C, or they may be combinations of titles or line items. For instance, "Deposits" in Note C may come from several line items on the balance sheet such as "Cash in Bank" and "Certificates of Deposits (CDs)", or even "Investments" (See section III below that gives further guidance on what should be considered "Deposits" in note C).
- Line items on the balance sheet may include amounts that would be deposits in Note C, and may also include amounts that would be investments in Note C. Also, cash and cash equivalents line items on the balance sheet may include amounts that are not deposited in bank accounts of the entity and therefore would not be reported in Note C as deposits but as separate line items such as petty cash, cash on hand, and treasury cash. These amounts must be reported separately from the deposits in Note C.
- Each line item on the balance sheet that involves cash or investments, including any restricted cash and/or investments, needs to be analyzed to determine what is included in the item and how it should be disclosed in Note C.

III. "Deposits with Financial Institutions" section of Note C:

- Generally, this section of the Note C disclosure refers to the various examples of "Deposits with Financial Institutions" (See "A" below for examples). The term "cash and cash equivalents" is used in reference to GASB Statement 9 that affects presentation for the balance sheet and statement of cash flows, not the note disclosures required by GASB Statement 3 & 40. "Deposits with Financial Institutions" include deposit accounts in banks, savings and loan associations, and credit unions. They can be demand, savings, or time accounts, including negotiable order of withdrawal (NOW) accounts and non-negotiable CDs. As stated previously, deposits for Note C may be a combination of balance sheet line items or titles.
- Do not include treasury cash, petty cash not in a bank account, or cash on hand in Note C as part of the deposits in bank accounts. As mentioned previously, these amounts would be reported separately.

A. Examples and/or definitions:

1. Nonnegotiable Certificates of Deposit – Nonnegotiable CDs are time deposits that are placed by depositors directly with financial institutions and generally are subject to a penalty if redeemed before maturity. These are treated as deposits for GASB 3 Note C disclosures. For Balance Sheet and Statement of Cash Flows treatment, see Note C(1).

2. Money Market Accounts – financial institution “money market” accounts are simply deposits that pay interest at a rate set to make the accounts competitive with money market mutual funds. They should be treated like any other deposit account for Note C disclosures.
3. Bank Investment Contracts (BICs) – A BIC is a general obligation instrument issued by a bank, typically to a pension plan, that provides for a guaranteed return on principal over a specified period. Since these are issued by a bank, they are treated as deposits for Note C disclosures.

B. Other definitions as applied to deposits:

1. Insured (Insurance) – deposits are insured by federal deposit insurance (FDIC), state deposit insurance, multiple financial institution collateral pools that insure public deposits, and even commercial insurance (if scope of coverage would be substantially the same as FDIC).
2. Collateral – Security pledged by a financial institution to a government entity for its deposits.

IV. “Investments” section of Note C:

Types of investments for listing investments by type definitions/examples:

1. Negotiable Certificates of Deposit - securities **with a minimum face value of \$100,000**, but are normally sold in \$1 million units **and can be** traded in the secondary market. **They appeal to institutions interested in low-risk investments with a high degree of liquidity.** These are treated as investments for Note C disclosures. For Balance Sheet and Statement of Cash Flows treatment, see Note C(1).
2. Repurchase Agreements – An agreement in which a governmental entity (buyer-lender) transfers cash to a broker-dealer or financial institution (seller-borrower): the broker-dealer or financial institution transfers securities to the entity and promises to repay the cash plus interest in exchange for a) the same securities, or for b) different securities. Include under this category, overnight repos, term repos, open repos, and tri-party repos.
3. U.S. Government Obligations – Generally these investments are not exposed to custodial credit risk because they are issued directly by and backed by the full faith and credit of the U.S. Government. Examples include treasury bills, treasury notes and treasury bonds.
4. U.S. Agency Obligations – Fixed-income securities that are issued by U.S. government-sponsored entities (GSEs). Because of their special GSE status, the market doesn’t demand as high of an interest rate as it would from an equivalent private sector issuer because of the perception that the government would step in to back the securities in the case of default. However, the U.S. government does not actually back these debt issues.
5. Common & Preferred Stock – A security that represents an ownership interest in an entity.
6. Mortgages - Examples include mortgage-backed securities and collateralized mortgage obligations. Mortgage-backed securities are created when a financial institution, such as Fannie Mae, purchases mortgages from the banks that issue the mortgages, then the financial institution packages the mortgages and resells them into the secondary market where investors purchase them to earn current income in a relatively safe investment. A Collateralized Mortgage Obligation is a security that is backed by real estate and the issuer is not a governmental issuer, such as Fannie Mae.
7. Corporate Bonds
8. Mutual Funds –
 - a. Closed-end Mutual Fund – The investment company sells shares of its stock to investors and it invests on the shareholders’ behalf in a diversified portfolio of securities. A closed-end mutual fund has a constant number of shares, the value depends on the market supply and demand for the shares rather than directly on the value of the portfolio, the fund does issue certificates, and the securities are traded on a stock exchange.
 - b. Open-end Mutual Funds – The investment company sells shares of its stock to investors and it invests on the shareholders’ behalf in a diversified portfolio of securities. In contrast to a closed-end mutual fund, the open-end mutual fund creates new shares to meet investor demand, the value depends directly on the value of the portfolio, and the fund does not issue certificates but sends out periodic statements showing account activity. These investments are not evidenced by securities that exist in physical or book entry form.
9. Investments in real estate, annuity contracts, and direct investments in mortgages
10. Miscellaneous Other – It is not appropriate to present material amounts of investments as “Other”, unless the note disclosure describes the composition of the “Other” category. The following are examples of other investments:
 - a. Commercial Paper – An unsecured promissory note that is typically sold by a corporation, has a fixed maturity of 1 to 270 days, and is usually sold at a discount from face value.

- b. Guaranteed Investment Contracts - insurance contracts that guarantee the owner principal repayment and a fixed or floating interest rate for a predetermined period of time.
- c. Investments Held in Private Foundations
- d. Investments in pools managed by another government - Generally, these investments would not be exposed to custodial credit risk because the investments themselves are not evidenced by securities that exist in physical or book entry form.
- e. Other Bonds – Examples include foreign government bonds, bond issue trustee accounts, bond index funds, foreign bonds, private placement bonds, and yankee bonds.
- f. Private placements, such as venture capital and limited partnerships
- g. Reverse Repurchase Agreements - An agreement in which a broker-dealer or financial institution (buyer-lender) transfers cash to a governmental entity (seller-borrower); the entity transfers securities to the broker-dealer or financial institution and promises to repay the cash plus interest in exchange for a) the same securities, or for b) different securities.
- h. Any other unique investment not listed above or not included in another category type

V. Risk Disclosures for Deposits and Investments:

- Deposits and investments are subject to several types of risks, mainly credit risk, market risk, interest rate risk, and foreign currency risk.
 - Credit risk - defined as the risk that a counterparty to an investment transaction will not fulfill its obligations and can be associated with the issuer of securities, with a financial institution holding deposits, or with a party holding investment or collateral securities.
 - Concentration of credit risk – defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer.
 - Market risk – defined as the risk that the market value of investment securities, collateral securities protecting a deposit, or securities of a repurchase agreement will decline.
 - Interest rate risk – defined as the risk that changes in interest rates will adversely affect the fair value of an investment.
 - Foreign currency risk – defined as the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit.

A. Custodial Credit Risk Disclosures for Deposits:

Following GASB Statement 3, deposits were classified into three categories of custodial credit risk depending on whether they were insured or collateralized, and who holds the collateral and how the collateral is held.

1. Collateral – Securities pledged by the financial institution for the purpose of securing the governmental entity's deposits.
2. Collateralized – When the entity's deposits are secured with securities pledged by the financial institution holding the deposits.

GASB Statement 40 amended GASB Statement 3 to eliminate the requirement to disclose all deposits by the three categories of risk. GASB Statement 40 requires only the disclosure of deposits that are considered to be exposed to custodial credit risk. An entity's deposits are exposed to custodial credit risk if the deposit balances are 1) uninsured and uncollateralized, 2) uninsured and collateralized with securities held by the pledging financial institution, or 3) uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the entity's name.

B. Custodial Credit Risk Disclosures for Investments:

Following GASB Statement 3, investments (listed by type) were either classified into three categories (depending on whether they are insured or registered and who holds the securities and how they are held), or listed as non- categorized investments.

GASB Statement 40 amended GASB Statement 3 to eliminate the requirement to disclose all investments by the three categories of risk. GASB Statement 40 requires only the separate disclosure of investments that are considered to be exposed to custodial credit risk. However,

the total reported amount and fair value columns still must be reported for total investments regardless of exposure to custodial credit risk. Those investments exposed to custodial credit risk are reported by type in one of two separate columns depending upon whether they are held by a counterparty, or held by a counterparty's trust department or agent not in the entity's name.

C. Additional Risk Disclosures for Required by GASB Statement 40:

Credit Risk - Disclose the credit risk of debt investments by credit quality ratings as described by rating agencies as of the fiscal year end, including the rating agency used. All debt investments regardless of type can be aggregated by credit quality rating (if any are un-rated, disclose that amount). Examples of un-rated debt investments include U.S. Treasury Notes, external investment pools, or investments held by foundations. The preparer may need to contact their investment advisor for complete information relating to debt investments and their credit quality ratings.

Debt securities issued by a federal government-sponsored enterprise (GSE) and held by a state or local government as an investment are subject to credit risk. GSEs are independent organizations sponsored by the federal government. Examples include the Federal Farm Credit Banks, the Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation (FHLMC), Federal National Mortgage Association (FNMA) and Student Loan Marketing Association (SLMA). The liabilities of the GSE are **not** backed by the full faith and credit of the federal government.

Interest Rate Risk - Disclose the interest rate risk of debt investments by listing the investment type, total fair value, and breakdown of maturity in years of those investments. The preparer may need to contact their investment advisor for complete information relating to the related maturities of these investments.

Highly Sensitive Investments - Disclose the fair value and terms of any debt investments that are highly sensitive to changes in interest rates due to the terms (e.g. coupon multipliers, reset dates, embedded options, etc.) of the investment. Examples of debt investments that are highly sensitive to changes in interest rates include asset-backed securities such as mortgage pass-through securities issued by FNMA, Government National Mortgage Association (GNMA), and FHLMC.

Concentration of Credit Risk - List, by amount and issuer (not including U.S. government securities, mutual funds, and investment pools), investments in any one issuer that represents 5% or more of total investments.

Foreign Currency Risk - Disclose the U.S. dollar balances of any deposits or investments that are exposed to foreign currency risk (deposits or investments denominated in foreign currencies). List these by currency denomination and investment type, if applicable.

Deposits and Investments Policies Relating to Risk - Briefly describe the deposit and/or investment policies related to the custodial credit risk, credit risk of debt investments, concentration of credit risk, interest rate risk, and foreign currency risk disclosed in this note. If no policy exists concerning the risks disclosed, that fact should be stated.

VI. Securities as Applied to Credit Risk of Deposits and Investments:

Securities defined – a transferable financial instrument that evidences ownership or creditorship. Securities can be in either paper or book-entry form.

1. Examples of securities that are often held by or pledged to (as collateral) governmental entities include:
 - a. treasury bills, treasury notes, treasury bonds
 - b. federal agency obligations
 - c. corporate debt instruments (including commercial paper)
 - d. corporate equity instruments
 - e. negotiable CDs (keyword here is negotiable)

- f. bankers' acceptances
 - g. shares of closed-end mutual funds (keyword here is closed-end)
 - h. shares of unit investment trusts
2. Instruments or investments that are not securities include:
- i. investments made directly with another party (such as limited partnerships)
 - j. real estate
 - k. direct investments in mortgages and other loans
 - l. investments in open-ended mutual funds (keyword here is open-ended)
 - m. pools managed by other governments
 - n. annuity contracts

Technical Bulletin 2003-1 -- Disclosure Requirements for Derivatives Not Reported at Fair Value on the Statement of Net Assets (Below is an excerpt from this technical bulletin)

What is a derivative?

A derivative instrument is a financial instrument or other contract with all three of the following characteristics:

- a. It has (1) one or more underlying and (2) one or more notional amounts or payment provisions or both. Those terms determine the amount of the settlement or settlements, and, in some cases, whether or not a settlement is required.
- b. It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- c. Its terms require or permit net settlement, it can readily be settled net by a means outside the contract, or it provides for delivery of an asset that puts the recipient in a position not substantially different from net settlement.

Notwithstanding the above characteristics, loan commitments that relate to the origination of mortgage loans that will be held for sale, as discussed in paragraph 21 of FASB Statement No. 65, Accounting for Mortgage Banking Activities (as amended), shall be accounted for as derivative instruments by the issuer of the loan commitment (that is, the potential lender). Paragraph 10(i) provides a scope exception for the accounting for loan commitments by issuers of certain commitments to originate loans and all holders of commitments to originate loans (that is, the potential borrowers).

What financial statement note disclosures should be presented for derivatives that are not reported at fair value on the statement of net assets?

Governments that, as of the date of the financial statements, are party to a derivative that was not reported at fair value on the statement of net assets should disclose the information described in paragraphs 6 through 10. Disclosure information for similar derivative types may be aggregated.

Objective of the derivative—The government should disclose its objective for entering into the derivative, the context needed to understand that objective, and its strategies for achieving the objective, indicating the types of derivatives used including options purchased or sold.

Significant terms—The government should disclose the significant terms of the transaction, including:

- a. Notional, face, or contract amount
- b. Underlying indexes or interest rates, including terms such as caps, floors, or collars
- c. Options embedded in the derivatives
- d. The date when the derivative became effective and when it is scheduled to terminate or mature
- e. The amount of cash paid or received when the derivative was initiated.

Fair value—The government should disclose the fair value of the derivative at the reporting date and, if that fair value is based on other than quoted market prices, the method and significant assumptions used to estimate the fair value of the derivative. Acceptable methods are discussed in Question 3.

Associated debt—Some derivatives may be entered into with the intention of effectively making a government's debt obligation carry a synthetic interest rate. For example, a government may issue variable-rate debt and issue a pay-fixed, receive-variable interest rate swap with the objective of achieving a synthetic fixed rate for the combined instruments. If this is the case, the derivative's net cash flow should be disclosed in addition to the debt service requirements of the associated debt. Debt service requirements to maturity are required disclosures established by Statement 38, paragraphs 10 and 11.

Risks—The government should disclose, when applicable, its exposure to the following risks that could give rise to financial loss. Risk disclosures are limited to derivatives that are extant as of the date of the statement of net assets. Disclosures required by this paragraph may contain information that is also required by other paragraphs. However, these disclosures should be presented in the context of a derivative's risk.

a. Credit risk is the risk that a counterparty will not fulfill its obligations. If a derivative exposes a government to credit risk, the government should disclose that exposure as credit risk and also disclose the following information:

1. The credit quality ratings of counterparties as described by nationally recognized statistical rating organizations—rating agencies—as of the date of the statement of net assets. If a credit risk disclosure is required and the counterparty is not rated, the disclosure should indicate that fact.
2. The maximum amount of loss due to credit risk, based on the fair value of the derivative as of the date of the statement of net assets, that the government would incur if the parties to the derivative failed to perform according to the terms of the contract, without respect to any collateral or other security.
3. A brief description of the collateral or other security that supports derivatives subject to credit risk and information about the government's access to that collateral or other security.
4. Information about any master netting arrangements to mitigate credit risk. The disclosure should include a brief description of the terms of those arrangements.
5. The extent of diversification among counterparties.

b. Interest rate risk is the risk that changes in interest rates will adversely affect the fair values of a government's financial instruments or a government's cash flows. If a derivative increases a government's exposure to interest rate risk, the government should disclose that increased exposure as interest rate risk and also the derivative's terms that increase such a risk. The determination of whether a derivative increases interest rate risk should be made after considering, for example, the effects of the derivative and any associated debt.

c. Basis risk is the risk that arises when variable interest rates on a derivative and an associated bond or other interest-paying financial instrument are based on different indexes. When relationships between different indexes vary and that variance adversely affects the government's calculated payments, cost savings or synthetic interest rates may not be realized. If a derivative exposes a government to basis risk, the government should disclose that exposure as basis risk and should also disclose the derivative's payment terms and any payment terms of the government's associated debt.

d. Termination risk is the risk that a derivative's unscheduled end will affect a government's asset/liability strategy or will present the government with potentially significant unscheduled termination payments to the counterparty. For example, a government may be relying on an interest rate swap to insulate it from the possibility of increasing interest rate payments. If the swap has an unscheduled termination, that benefit would not be available. If a derivative exposes a government to termination risk, the government should disclose that exposure as termination risk and also the following information, as applicable:

- (1) Any termination events that have occurred.
- (2) Dates that a derivative may be terminated.
- (3) Out-of-the-ordinary termination events contained in contractual documents, such as "additional termination events" contained in the Schedule to the International Swap Dealers Association Master Agreement.

e. Rollover risk is the risk that a derivative associated with a government's debt does not extend to the maturity of that debt. When the derivative terminates, the associated debt will no longer have the benefit of the derivative. An example is an interest rate swap that pays the government a variable-rate payment that is designed to match the term of the variable-rate interest payments on the government's bonds. If the derivative's term is ten years and the associated debt's term is thirty years, after ten years the government will lose the benefit of the swap payments. If a derivative exposes a government to rollover risk, the government should disclose that exposure as rollover risk and should also disclose the maturity of the derivative and the maturity of the associated debt.

f. Market-access risk is the risk that a government will not be able to enter credit markets or that credit will become more costly. For example, to complete a derivative's objective, an issuance of refunding bonds may be planned in the future. If at that time the government is unable to enter credit markets, expected cost savings may not be realized. If the derivative creates market-access risk, the government should disclose that exposure as market-access risk.

What methods are acceptable for determining a derivative's fair value?

GASB Statement 25, paragraph 24, provides:

Fair value should be measured by the market price if there is an active market for the investment. . . . If a market price is not available, a forecast of expected cash flows may aid in estimating fair value, provided that the expected cash flows are discounted at a rate commensurate with the risk involved.

Within the context of discounted cash flows, formula-based methods such as zero-coupon and par-value methods are acceptable. The zero-coupon method calculates the future net settlement payments required—for example, by an interest rate swap—assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swap. The par-value method compares, for example, the fixed rate on an interest rate swap with the current fixed rates that could be achieved in the marketplace should the swap be unwound. An option contained in a derivative may also be priced using an option pricing model, such as the Black–Scholes model, that considers probabilities, volatilities, time, underlying prices, and other variables.

INFORMATION FOR NOTE W: IMPAIRMENT OF CAPITAL ASSETS

GASB 42 establishes accounting and financial reporting standards for impairment of capital assets and for insurance recoveries. Governments are required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. GASB 42, paragraph 9 outlines five (5) common “indicators of impairment.” They are:

1. Evidence of physical damage, such as for a building damaged by fire or flood, when the level of damage is such that restoration efforts are needed to restore service utility.
2. Enactment or approval of laws or regulations or other changes in environmental factors, such as new earthquake standards that a facility does not meet, and cannot be modified to meet.
3. Technological development or evidence of obsolescence, such as that related to a major piece of diagnostic or research equipment.
4. A change in the manner or expected duration of use of a capital asset, such as closure of a building prior to the end of its useful life.
5. Construction stoppage, such as stoppage of construction as a result of a lack of funding.

Damaged assets can be separated into the following categories:

1. assets that will not be returned to service
2. assets temporarily out of service due to needed repairs, restoration, or recertification
3. assets remaining in service but needing repair
4. assets damaged that will continue to be used, but will not be repaired

Category 1 assets that are destroyed or so badly damaged that it is not cost effective to restore them are considered to be 100% impaired, and the impairment loss will be equal to the carrying value of the asset at the beginning of the year of the impairment event. The impairment loss for category 1 assets that are not completely destroyed, will no longer be used and will not be restored will equal the difference between the carrying value at the beginning of the year of the impairment event and the fair value after the impairment event. If the assets are going to be restored (category 2 and 3), then they need to be evaluated for impairment per GASB 42.

For assets impaired by physical damage, the restoration cost approach should be used to calculate the impairment loss. Under this approach, the amount of the impairment loss is derived from the estimated costs to restore the utility of the capital asset. According to the standard, an asset is not considered impaired unless its decline in service utility is significant; therefore, OSRAP has established impairment thresholds for assets impaired by physical damage. In order for an asset to be considered impaired by physical damage, the restoration cost (estimated restoration cost if the asset is not fully restored) of the impaired asset must be equal to or greater than the following:

Infrastructure	For state agencies that use the Wooster Method to capitalize their infrastructure, all restoration projects that cost at least \$100,000 should be added together, and if this total is at least \$3 million per
Buildings	Greater of \$100,000 or 20% of the capitalized cost of the building
Movable Property	Greater of \$20,000 or 20% of the capitalized cost of the asset

Infrastructure – For infrastructure capitalized by the Wooster Method, the magnitude in the decline in service utility is significant component of the impairment test will be considered met if the total of all

estimated restoration projects costing at least \$100,000 are equal to or greater than the capitalization threshold for infrastructure, or \$3 million per agency, per year.

Buildings – For buildings impaired by physical damage, the restoration cost threshold is equal to the greater of the capitalization threshold, \$100,000, or 20% of the capitalized cost of the building. If the building's restoration costs are equal to or greater than the capitalization threshold or equal to or greater than 20 percent of the capitalized costs of the impaired building (whichever is higher), and the building's decline in service utility is "unexpected", we will conclude that the asset has met the impairment test criteria, and is impaired. Note: According to the provisions of GASB 42, an asset is impaired when there is a "significant" and "unexpected" decline in the service utility of a capital asset.

Movable property – For movable property impaired by physical damage, the restoration cost threshold is equal to the greater of \$20,000 or 20% of the capitalized cost of movable property. If the cost to restore the property is lower than \$20,000 or 20% of the capitalized cost of the impaired property (whichever is higher), we will not consider the "magnitude in the decline in service utility is significant" component of the impairment test to be met. If the cost to restore the movable property is equal to or greater than the impairment threshold, \$20,000 or 20% of the capitalized cost of the impaired movable property (whichever is greater), and the movable property's decline in service utility is unexpected, we will conclude that the asset has met the impairment test criteria, and is impaired according to the provisions of GASB 42.

Category 4 assets do not meet the impairment threshold test because the magnitude in the decline in the service utility component of the impairment test would not be met, and no impairment loss will be calculated for these assets.

For assets impaired by enactment or approval of laws or regulations or other changes in environmental factors, technological development or evidence of obsolescence, or a change in the manner or expected duration of use, use the examples provided in GASB 42 for guidance in calculating the impairment loss. The thresholds developed by OSRAP for estimated restoration cost discussed above do not apply to these assets. Report capital assets impaired by construction stoppage at the lower of carrying value or fair value.

An insurance recovery associated with events or changes in circumstances resulting in impairment of a capital asset should be netted with the impairment loss when the recovery and the loss occur in the same year. Restoration or replacement of the capital asset using the insurance recovery should be reported as a separate transaction. Insurance recoveries should be disclosed if not apparent from the face of the financial statements.

GASB 42 requires that the carrying amount of impaired capital assets that are idle at year end be disclosed in the notes, regardless of whether the impairment is permanent or temporary. However, an impairment loss does not have to be calculated for a temporarily impaired asset. If management has to take action to reverse an impairment, such as restoration of a capital asset with physical damage, then the impairment should be considered permanent. In certain circumstances, temporary impairments could be associated with enactment or approval of laws or regulations or other changes in environmental factors, changes in technology or obsolescence, changes in manner or duration of use, or construction stoppage.

INFORMATION FOR SCHEDULE 16: COOPERATIVE ENDEAVORS

LRS 33:9022 defines cooperative endeavors as any form of economic development assistance between and among the state of Louisiana, its local governmental subdivisions, political corporations, public benefit corporations, the United States government or its agencies, or any public or private association, corporation, or individual. The term cooperative endeavor includes cooperative financing, cooperative development, or any form of cooperative economic development activity. The state of Louisiana has entered into cooperative endeavor agreements with certain entities aimed at developing the economy of the state.

The net liability for fiscal year ending June 30, 2009, is reported according to funding source, as follows:

- State General Fund
- Self-generated revenue
- Statutorily dedicated revenue
- General obligation bonds
- Federal funds
- Interagency transfers
- Other funds/combination

NOTE: Amounts in excess of contract limits cannot be used to reduce the outstanding contract balance at June 30, 2009. For example, if a contract specifies a percentage of usage for each month (25%) and usage exceeds that percentage (75%), you cannot claim actual usage that exceeds contract requirements (50%).

NOTE: In order to compute the ending balances by funding source, you should begin with your balances at June 30, 2008. These amounts will be increased by amounts for new contracts and amendments and decreased for payments as well as for liquidations.

INSTRUCTIONS:

- Use Schedule 16 to report your agency's cooperative endeavor(s) and submit an electronic version via e-mail to katherine.porche@la.gov
- Submit a hard copy of the report with your agency's AFR
- Do not include encumbrances reported in Note L
- Report only the cooperative endeavor(s) that you are obligated to pay
- DO NOT REPORT – if your agency is the recipient of the cooperative endeavor(s)
- The seven (7) funding source column amounts **must** equal "Net Liability at June 30" column
- The "Paid-Inception to Date" plus "Net Liability" columns **must equal** "Original Amount of Coop" Column

TYPE OF APPROPRIATIONS:

- Multi-year appropriation – a contract with an annual obligation of a fixed amount over a number of years
- One-time appropriation – a contract that has a one time obligation but any remaining amount can and does roll over into the next year or thereafter
- Other appropriation – a contract with an obligation that does not fall under multi-year or one-time appropriation. Attach a brief description of the obligation.

REQUIREMENTS:

1. No cooperative endeavor(s) to report – record “None” on Schedule 16
2. Have cooperative endeavor(s) to report:
 - **must** send an electronic file of Schedule 16 to katherine.porche@la.gov
 - **must** attach a copy of Schedule 16 with the AFR
3. To get a cooperative endeavor schedule format in Excel, send an e-mail request to katherine.porche@la.gov

AGENCIES - using CFMS:

Most cooperative endeavor contracts are coded with a document type of “COP” in the Contract Financial Management Subsystem (CFMS); however, there are some that are considered cooperative endeavors, but are coded with other document types. Examples of document types are:

- Contracts that fall under delegated authority (AGY or IAT)
- Facility Planning and Control contracts (CEA)
- Certain federal government contracts (OTH or GOV)
- Contracts designated as such by legislative auditors (AGY or IAT)
- Work incumbent programs (WIP)

INFORMATION FOR NOTE Y: REVENUES PLEDGED OR SOLD (GASB STATEMENT 48)

FUTURE REVENUES REPORTED AS A SALE

A transaction in which an agency/entity receives proceeds in exchange for cash flows from specific future revenues should be reported as a sale if the agency continuing involvement with those revenues meets all of the following criteria:

- a. The agency does not maintain an active involvement in the future generation of those revenues.
- b. The transferee's ability to subsequently sell or pledge the future cash flows is not significantly limited by constraints imposed by the agency either in the transfer agreement or through other means.
- c. The cash resulting from collection of the future revenues has been isolated from the agency/entity. Generally, banking arrangements should eliminate access by the agency to the cash generated by collecting the future revenues. Access is eliminated when the revenues are received directly by the transferee or are deposited directly into a custodial account maintained for the benefit of the transferee. However, if the agency is required to remain as the recipient, (1) the cash payments to the transferee should be made only from the resources generated by the specific revenue or receivable rather than from the agency's own resources; and (2) the cash collected should be remitted to the transferee without significant delay.
- d. The contract, agreement, or other arrangement between the original resource provider and the agency does not prohibit the transfer or assignment of those resources.
- e. The sale agreement is not cancelable by either party, including cancellation through payment of a lump sum or transfer of other assets or rights.

The agency may cease active involvement in the generation of specific revenues yet remain involved with those revenues in some manner. *Active involvement generally requires a substantive action or performance by the government.* Agencies should determine whether the *primary* or *fundamental* activity or process that generates the specific revenue requires continuing active involvement. The criteria for active involvement in the future generation of revenues include the following:

- a. The agency produces or provides the goods or services that are exchanged for the revenues
- b. The agency levies or assesses taxes, fees, or charges and can directly influence the revenue base or the rate(s) applied to that base to generate the revenues.
- c. The agency is required to submit applications for grants or contributions from other governments, organizations, or individuals to obtain the revenues.
- d. The agency is required to meet grant or contribution performance provisions to qualify for those revenues.

The agency may remain associated with the specific revenues in ways that do not constitute the primary or fundamental activity that generates the revenues and thus would be considered to have a passive involvement in the generation of those revenues. Activities that would be considered passive involvement include the following:

- a. Holding title to revenue-producing assets (leases, rents, or royalty income)
- b. Owning a contractual right to a stream of future revenues (tobacco settlement revenues)
- c. Satisfying the "required characteristics" eligibility criterion in paragraph 20 of GASB Statement 33, *Accounting and Financial Reporting for Nonexchange Transactions*

- d. Agreeing to refrain from specified acts or transactions (agreeing to noncompetition restrictions)

If the criteria required for sale reporting are not met (as described above and in GASB Statement No. 48, paragraphs 6-9), a transaction should be reported as collateralized borrowing.
